Ask Charlie to visit with   
in Commo to determine how and if the  
substance of the attachment will influence  
our current site planning.

 told me he didn't think it would --  
however, he suggested that ADPS people get  
to know  and remain in close touch with  
him on such matters.

P.S.  also asked me if I knew anything  
about "data phone" requirements from our computer  
center to DD/R - I told him I did not. Are you aware  
of this?

I suspect that DD/R interest  
in "data phone" ~~are~~ is to  
transmit <sup>end products</sup> ~~results~~ from the 25X1A  
to DD/R offices. DD/R  
considered but turned down

for such a purpose
